SPORT LIGHTING

METAL HALIDE

SYSTEM OVERVIEW

A "TURN-KEY" SOLUTION

GeoSport™ Lighting offers a full in-house design and build for all of your sports lighting needs including design, assembly and “turn-key” installation of LED stadium lighting systems for all levels of play.

METAL HALIDE TECHNOLOGY

GeoSport™ Lighting Metal Halide is a high performance, visored fixture available in 400-watt, 1000-watt and 1500-watt remote ballast configurations. This technology utilizes IES computer designed horizontal optics with built-in spill and glare control.

STATE-OF-THE-ART SYSTEM

GeoSport™ Lighting comes fully assembled, pre-aimed and pre-wired for easy, quick installation — An affordable and proven option for all levels of sport venues.

PROVEN FOR ALL LEVELS

THE MOST EFFECTIVE AND AFFORDABLE METAL HALIDE SPORTS LIGHTING SYSTEM IN THE WORLD

Our Metal Halide System includes the availability of one of the best remote control units in the industry as well as 24/7 customer service and available 25-year Maintenance-Free Warranty.

The GeoSport™ Lighting Metal Halide fixture is UL Listed for all applications and its technology has been utilized in all levels of stadiums across the country.

Our systems is offered with state-specific stamped engineered foundation designs utilizing steel poles, crossarms and mounting hardware.
